Anastasia Releases Her 2011 Calendar

Hot to Go, Hot off the Press

The [2011 Anastasia Calendar](#), now in its 2nd edition, was published for download today on AnastasiaDate.com. The much-awaited release follows a successful 2009 launch of Anastasia's premiere edition and features several updates.

Each of the 365 ladies' images that fill the months of 2011 can be downloaded onto the user's computer screen as a desktop background and may be set up to change every day. Each Lady's profile is also accessible from the Calendar, which is filled with important dates in Russian, CIS and world culture and history.

Capturing the pure delight and animal magnetism of each of Anastasia's Ladies, the 2011 edition now becomes fully interactive with live invitations to Live Chat from Ladies contained in the user's Live Chat contact list. Indicators on the Calendar also tell the user when certain Ladies from their Live Chat contact list are online.

Users can now login to their Anastasia account, view their Live Chat contact list, go to their Live Chat window and email Inbox as well, all on the new Calendar interface. The ability to send email, flowers and gifts, call their favorite Lady, and save a copy of any hi-resolution photo as a .jpg file, has been enabled for members directly from Anastasia's Calendar.

Virtually a new portal enabling users to access so many features previously available only on site, Anastasia's 2011 Calendar breathes new life into access of this vital dating portal.
